PROJECTS:

[LINK]ExpenseTracker(Web-application):
Tech Stack : **MERN Stack**: MongoDB, Express.js, React.js, Node.js

This full-stack web app helps users manage their personal finances with ease. Built using MongoDB, Express, React, and Node.js, it features a clean, responsive UI with Tailwind CSS, secure authentication using JWT & bcrypt, and user avatar support with Multer. Users can track income and expenses, view recent transactions, and analyze their spending patterns—all in one place. Designed especially for students, it solves a real problem of managing limited budgets.

[LINK]AURE(Web-application):
Tech Stack : **MERN Stack**: MongoDB, Express.js, React.js, Node.js

This is an e-commerce platform offering responsive design, intuitive navigation, and a seamless user experience. Featuring diverse product collections, detailed product views, a smooth checkout process, and an **admin page for monitoring customer activity**, it ensures effortless Browse and shopping across all devices for various online retail needs.

[LINK]AI Image Identifier(React-application):
Tech Stack : , JavaScript , CSS , REST APIs , Reactjs , Google AI studio

I developed a web application that identifies objects in user-uploaded images by integrating with a third-party image recognition API. The application features a clean, user-friendly interface built with React, allowing users to easily upload an image and view the AI-generated tags and descriptions, which are fetched and displayed by handling API requests and responses.

[LINK] Portfolio(React-application):
Tech Stack : HTML5,CSS3, JAVASCRIPT,TailwindCSS,ReactJs,React-Router, Gsap
Developed a responsive portfolio ,where the website showcases my skills and projects, Features include an intuitive design with animation , smooth navigation, and interactive elements, optimized for performance and accessibility across all devices.

EDUCATION
B-Tech-CSE(Data-science) | JSSATE , Noida , 2023-2027
Grade : 8.8 CGPA till the end of the 2nd year
Intermediate : T.P.R.S. educational institute , Mohammadi kheri 262804| 2021-2022 | 90%
High-School : T.P.R.S. educational institute , Mohammadi kheri262804|2021-2022 | 90%

TECHNICAL SKILLS

Programming Language – C, C++

Web Development (Frontend):

- **Languages:** HTML5, CSS3, JavaScript
- **Frameworks/Libraries:** React.js
- **Styling:** TailwindCSS
- **Routing:** React Router
- **API Communication:** Axios

Web Development (Backend):

- **Runtimes/Frameworks:** Node.js, Express.js
- **API Design:** RESTful APIs
- **Authentication/Authorization:** JWT , Passport.js, Bcrypt

Databases:

- **NoSQL:** MongoDB

Version Control:

- Git, GitHub

Programming Concepts:

Object-Oriented Programming (OOP)

SOFT SKILLS

Teamwork and collaboration , Communication skill, Consistency , Problem Solving

LANGUAGES

Hindi , English
